

CleanSpace CST PRO and CST ULTRA the only PAPRs with SMART protection.

The new CleanSpace SMART App provides your workers with real-time visibility into their respiratory protection, giving you the confidence to know that safety standards are being met across your site.

Why Choose the SMART App:

Live Dashboard:

Workers instantly see their estimated protection and filter status, alarm updates and battery levels.

Filter Tracking:

Monitor filter use by the minute. Set the gas/vapour service life and track in real-time.

Always Supported:

Access training videos, mask fitting guides, and filter selection tools via the app.

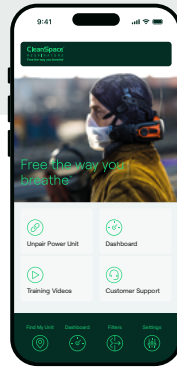

Stay connected. Stay protected. Stay in control.

Get Started in 3 Easy Steps

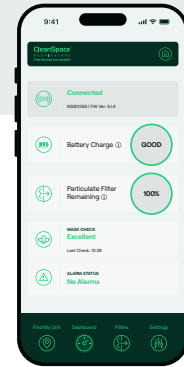

1. Download & Open

Free from the App Store (iOS) or Google Play (Android).

2. Pair Your Power Unit

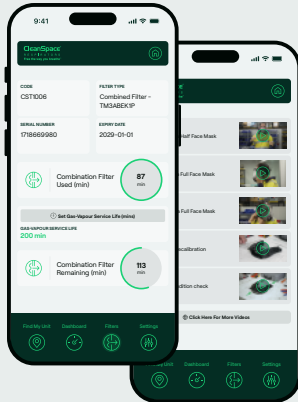

Follow the prompts to connect in seconds.

3. Explore the Dashboard

Instantly view:

- Battery charge
- Filter status (particulate & combination)
- Estimated protection and Alarm status

Track & Manage Filters

- Monitor filter minutes used
- Set a service life (in minutes) for gas/vapour filters and view minutes remaining in real-time

Support at Your Fingertips

Link to the CleanSpace website for access to training videos, mask fitting guides, and the CleanSpace Hub - via the App.
